

## Site-Ready Checklist

### ***General Prep***

- Site access is clear for truck and trailer delivery
- Install areas are marked (flags, spray paint, cones, or layout map)
- Surface is ready—no large debris, vehicles, or obstacles in the fence line
- Final fence layout has been approved and shared
- Access for forklift (if required) has been confirmed

### ***Personnel & Permissions***

- Someone is available on site to guide the delivery crew
- Jobsite foreman or event lead has contact info for DCFR
- Any permits, permissions, or safety briefings are completed
- Lock/gate instructions (if needed) have been shared

### ***Special Requests (if applicable)***

- Pedestrian gates and drive gates have designated locations
- Privacy screen sections are clearly marked
- Staging/storage location for unused panels or materials is identified
- Any tricky terrain or uneven ground has been communicated
